

The CarFit program offers older adults the opportunity to check how well their vehicles fit them. A team of trained technicians work with each participant to ensure that the safety and comfort features unique to their vehicles are being fully utilized. Drivers can improve their safety by ensuring their cars are properly adjusted for them. This program is not intended to determine a person's ability to drive or have a driver's license. A proper fit can greatly increase not only the driver's safety, but also the safety of others. Program is offered:

- First Thursday of each month – St. Mary Medical Center's Ambulance Garage Langhorne, PA
- Third Monday of each month – **St. Mary EMS at the Upper Makefield Fire Company Washington Crossing, PA** --- NEXT CLASS –

MONDAY – June 20, 2016 from 1 – 3 pm
- Fourth Tuesday of each month – Our Lady of Fatima Outreach Center Bensalem, PA

APPOINTMENTS ARE REQUIRED. For details or to schedule an appointment, please call the St. Mary Trauma Prevention Program at 215-710-7078.
